

Anti-doping Green Seal

Template for relevant study or survey in anti-doping.

Title of the study:

Abuse of anabolic steroids.

Publication date:

2005

Author/Organization:

M. Hernández Viadel y J.L. Guillem Miralles - Psychiatric Service. Sagunto Hospital. Valencia. Spain /
Psiquiatría Biológica 2005;12(1)

Target audience:

Psychologists, physicians, social workers, etc.

Objective:

Review of the use and abuse of anabolic steroids

Location/Geographical coverage:

Sagunto. Valencia. Spain

Summary:

Anabolic steroids are currently used as drugs of abuse. An addictive pattern of consumption and withdrawal symptoms has been described. Prolonged administration of high doses is associated with organic disease and psychiatric disorders. The present article provides a review of the subject.
